Dear Minister,

I am deeply disturbed to learn of the imprisonment of **Dolma Gyab** (Zhou Ma Jia or Zhuo Shique), a history teacher from Lhasa, originally hailing from Dola Dzong (Chilen) in the province Qinghai. He was sentenced to ten years imprisonment on trumped-up charges after being detained in March 2005. Dolma Gyab is being imprisoned in the Chushul prison near Lhasa, his health is very bad due to continuous torture over the years. I am deeply worried about him.

According to a letter written in prison by **Dolma Gyab**, the reason for his arrest was his unpublished manuscript of a book entitled "Restless Himalayas" which deals with issue of Tibet and his plan to write a book on geology and the protection of the environment. Allegedly, the authorities accused him of "providing intelligence to foreign power".

I also understand that during the visit of the UN Special Rapporteur on Torture in November 2005 in Chushur prison **Dolma Gyab** was moved from his cell and kept hidden.

Freedom of thought, conscience and expression are fundamental human rights and are guaranteed by Articles 18 and 19 in the Universal Declaration of Human Rights and by the International Covenant on Civil and Political Rights. Thus your country must fulfil its obligations under international human rights law.

I urge your government to guarantee his safety and refrain from torturing him further. I also call for his immediate release or to bring him to a fair and public trial under international human rights standards and to allow **Dolma Gyab** to be visited by his family, as well as by independent medical practitioners and human rights monitors to examine his health conditions.

Yours Sincerely,

Name and Address:
